

International Women's Day 2024 Event Success

In honor of International Women's Day, we partnered with WiBSE and CIBSE for a memorable evening of empowerment and celebration aboard La Peniche. Guests enjoyed a scenic dinner cruise along Dublin's Grand Canal, fostering connections with like-minded professionals and celebrating the achievements, resilience, and potential of women in our industry. The night was filled with inspiring conversations and valuable networking, all in support of our collective mission to inspire inclusion. It was a huge success with 50 consultant engineers in attendance.
